*“Art should inspire  
you to look deeper yet  
be a welcome cohabiter”*

In an age of sensory inundation, the visuals you surround yourself with should bring joy, be a fulfilling vista in your home. They should materialize your own aesthetic self-expression and nurture your visual wellbeing.

Whether you're an avid art collector, an interior designer, or simply someone who appreciates beauty and creativity. In this catalogue you'll discover and journey through a comprehensive collection of my most notable artwork collections. I hope they leave you with a lasting impression.

I love nothing more than to experiment and push the boundaries of visual storytelling, and my own processes of art making through the mediums of sculpture and photography. This allows me to create beautiful artworks that expand upon cultural, social and environmental conversations with further introspection.

Combining these two mediums is my alternative to putting paint to canvas. Assembling, sculpting and photographing my visions to express & present my ideas. This evolving art practice allows me to push new boundaries (for myself

and my collectors) with each new series I create. It enables me to bring my tactile, 3D sculptural creations to a 2D viewing platform and distill them into a magnified photographic form, yielding Fine Art Prints of Limited Edition.

*“In an age of sensory  
inundation, the visuals you  
surround yourself with should  
bring joy, be a fulfilling vista  
in your home & materialize  
your own aesthetic self-  
expression and nurture your  
visual wellbeing.”*

*“I love working with metaphors, and ‘Light’ is an incredibly powerful one. Representing positivity, hope and healing, and as a beacon to guide us through the challenges of life.”*

## BE THE LIGHT

Life is a tapestry of challenges and triumphs, a delicate balance that unfolds with moments of magic, renewal, and purpose. As we navigate through a world facing pressing issues such as climate change and global humanitarian crises, we recognize the need for hope and connection. It is a time of both uncertainty and possibility, where we are challenged to reimagine traditional societal constructs and embrace our true essence.

In this collection, I explore the power of light as a metaphor for positivity, joy and hope. By layering repurposed glass surfaces and capturing the ethereal play of daylight distilled in 7 magnified fine art prints. My intention for this collection is to lift spirits, resonate with meaning, and infuse your home with the presence of light, joy, and hope. May you carry this feeling out into the world, becoming a beacon of inspiration for others.

*“As we let our own  
light shine, we  
unconsciously  
give other people  
permission to do the  
same.”*

BE THE LIGHT

*“Muse & metaphor for our  
human desire for reinvention  
& connection”*

# SUPERNATURAL

Mushrooms will save the world. A bold statement to make about a fungus but perhaps nothing creates a through line from pre-historic times to our collective future like this multifaceted organism. They are more than super – they are Supernatural. In this series mushrooms were my muse and a metaphor for my thesis. Their sculptural beauty wasn't the only thing to capture my interest: these otherworldly organisms have many layers beneath their surface.

As I continue to explore the relationship between three-dimensional sculpture and two-dimensional photography, both the beauty and fragility of the mushrooms I worked with emphasized some greater truths and created some big questions about our collective future and the role we play to preserve it.

*“An Icon for a new  
Renaissance: meet  
the Mushroom”*

I believe Fungi have the power to change the way we think. I hope the Supernatural series not only beautifies your spaces but creates a landscape of curiosity and discovery for you too.

*“An experimental exercise in observation, an inception for finding inspiration within an isolated environment”*

## THE NECESSARY ART OF NOTICING

‘The Necessary Art of Noticing’ tells a floral language adrift from traditional forms of flourishing bouquets or arrangements. An alchemy of abstract floral assemblages are distilled into a collection of 12 magnified photographic fine art prints. They are a touchpoint for a relatable and connective experience shared by so many of us across the globe, during

the pandemic lockdowns of 2020-22. Each piece has been created to provide a visual respite, a place to pause, hold space and reflect. To be a metaphor for deep hope, that our society can learn to slow down and preserve life in a new way on our beautiful planet.

*“Plants prepare,  
adapt and perform  
extraordinary acts  
of metamorphosis  
to get them through  
the seasons.”*

*‘Suspended Animation’ -*

*An alchemy of floral bouquets suspended in animation and distilled in magnified photographic form.*

THE NECESSARY ART OF NOTICING

*'In the Nuances' -*

*Fractured remains of decaying flora leave their remnants in residence, presenting themselves like line drawings or etchings between abstractly nuanced painted surfaces.*

*“The Assemble collection highlights the repurposing of old materials & our unlimited ability to seek and see new connections and outcomes, in ever evolving ways”*

## ASSEMBLE

These decommissioned mechanical molds seemed destined for a second act as still-life subjects. The way the light refracts and wraps around these industrial objects inspired me to emphasize their beauty perhaps not considered in their original form. They are now given a second life by being assembled into 5 sculptural geometric abstractions. Together the composition becomes greater than the sum of its distinct and separate parts.

Assemble focuses on sustainability and unity. Emphasizing our unlimited ability to seek and see new connections and outcomes, in ever evolving ways. In an era where headlines feel heavy, the notion of exploring and developing new narratives is a hopeful message.

## *Complimentary Art Consulting*

Whether your project is a new renovation or a room in need of a refresh, I can help guide you in choosing the perfect art vista for your space, that you'll love living with.

You can send me photos of your empty wall(s). Or we can walk through your space on a video call. I'll superimpose your favourite piece(s) into your space with the magic of photoshop. Helping you visualize so much better, how they'll look on your walls.

## *Trade Partnership Program*

Hello, Art Consultants, Interior Designers, Architects, Corporate Art Buyers, Home-developers, Property Stylists and Design Trade Professionals. My trade partnership program is for you! Special customization options. Print size specific to your clients space. Customized framing services. Delivery tailored

to your specific project needs. Private studio visits. Art advisory and art borrowing to enable your clients to trial physical artworks in their homes. I also provide an Art Rental service.

I look forward to connecting and collaborating with you!

# *Let's enhance your interior vista upon its arrival!*

It's important for me to help my collectors create a vista that can also have ongoing flexibility. The frames I choose for my art have been hand selected to not only be a beautiful complement to my art but to fuse with many interior environments. I work collaboratively with local and international framers to select a signature style frame specific to each collection.

Live abroad? No problem! All framed (and unframed) artwork is packaged securely for international travel. Framed art is packaged in a custom crate and delivered straight to your door, with that extra convenience of being ready to hang and be enjoyed upon arrival. My personal endorsement is, if you have invested in a limited edition, collectable fine art print (any treasured artwork), go the extra mile on the framing. You won't regret it. It's important to note, not all printers, papers & inks are made equal. Fine art printing is a technical art-form in and of itself.

Fine art printers use the highest rated digital preservation printing inks and papers. Colourfastness properties have been tested to last a lifetime to ensure your fine art print looks the same way today and in 150+ years or more.
